

# Diverse Movements in Stocks That Are Actively Traded In

## SMALL CHANGES OCCUR IN PRICES

Today's Fluctuations Are Within Small Limits.

## TRADING ELEMENT SHIFTS

Turned to Bull Side for a Time and Then Sold What It Bought.

NEW YORK, March 21.—The stock market opened active and strong at fractional advances from yesterday's close. Outside of the disposition to sell the stocks of the equipment companies there was no particular feature, and fluctuations were generally confined to fractions. After the initial dealings little profit-taking was in evidence and prices shaded off.

Southern Pacific was inclined to strength and held its fractional gain well. Canadian Pacific was equally firm. New York Central held 1/2 point. The Iron and Steel stocks were strong, with fluctuations between 1/2 and 1 point. Amalgamated Copper held at about last night's prices. Anaconda opened at a decline of 1 per cent. The speculative element trading through uptown offices and Western houses turned to the bull side and was a fairly good buyer of stocks. The fluctuations after the opening were narrow, although first prices showed gains of small fractions in Chesapeake and Ohio, Atchafalaya, U. S. L. and Texas Pacific. About an equal number showed small losses, and during the first hour there were diverse movements in the few stocks that were actively traded in.

Sugar declined from 1/4 to 1/2, on selling induced by the closing of the refinery in Brooklyn.

Nearly all the room shorts covered in the first hour and then the trading element shifted its position again and sold just about what it bought, causing reactions and losses ranging from 1/2 to 3/4 of the early price level.

Government bonds unchanged; railroad bonds strong.

Non-corn products were offered down on uncertainty in regard to dividend action on preferred stock today. Southern Railway and higher priced Atchafalaya was bought on gossip that the Pennsylvania will acquire control and guarantee 5 per cent on the stock.

## WASHINGTON STOCK MARKET

Sales.—United States registered 45, 400 @104 1/2.

## AIDS BEARISHNESS IN COTTON MARKET

NEW YORK, March 21.—The announcement that the final cotton report of the Census Bureau would be issued at noon March 22 increased the bearish local feeling at the opening of the cotton market, which had been inspired by the less favorable cables from Mexico.

New Orleans, Europe, and Philadelphia spot interests sold freely. Brokers frequently operating for Sully interests were buying.

The market acted very nervous, but resisted fairly well the severe pressure to which the bears subjected it.

## NEW YORK COTTON MARKET.

NEW YORK, March 21.—The following prices were quoted on the cotton market today:

	Open.	High.	Low.	100
May.....	7.80	7.85	7.70	7.70
July.....	7.80	7.85	7.70	7.70
August.....	7.82	7.83	7.73	7.73
October.....	7.88	7.89	7.77	7.77

## CHICAGO GRAIN MARKET.

CHICAGO, March 21.—The following are the quotations on today's exchange:

May.....	6.97	7.00	6.90	6.90

## GASSENHEIMER SENTENCED TO TWO YEARS IN PRISON

(Continued from First Page.)

the attempt to bribe the jury must be taken into consideration in making up the sentence. And while the law in its sentences deals as severely as may be compatible with its spirit that the example of the sentence shall be sufficient to deter others from offending in like manner, yet a system which would withdraw all severity of punishment from such offenders neither should nor would be tolerated by a law-loving people.

## A Sensational Case.

With the exception of a few cases involving capital punishment, the trial of Gassenheimer has been in several ways the most sensational which has taken place in the local courts for many years. As a result two persons were accused of attempting to wrongfully corrupt and influence members of the jury at the first and second trial.

One of these, Benjamin F. McCauley, was declared guilty of contempt of court in that he attempted to influence Juror Benjamin F. Shaw, and was sentenced by Justice Wright to imprisonment in jail for six months. Mr. McCauley has taken an appeal to the Court of Appeals from this judgment.

Counsel for Gassenheimer asked that the verdict against him be set aside on the ground that the indictment on which he was tried is invalid. This was opposed on the ground that the property of Gassenheimer is accused of embezzling, if embezzled at all, was embezzled outside the limits of the District.

## ARROWOOD WILL NOT LOSE CITIZENSHIP

The sentence of Midshipman Milton W. Arrowood, who deserted from the battleship Kearsarge, will be mitigated. Instead of being dismissed on the ground of desertion the punishment will be dismissal on the charge of being absent without leave. This means that he will not suffer the loss of citizenship which would result should he be dismissed under the first charge.

Midshipman Arrowood is the young North Carolina native who said that an American battleship was no fit place for a Christian gentleman.

## MONTAGUE WILL NOT REPRIEVE MURDERER

RICHMOND, Va., March 21.—Governor Montague has declined to interfere further in the case of Robert Turner, colored, condemned to hang for the murder of another colored man. The governor resented him for two weeks, and his time expires next Friday, when the execution will take place.

## NEWS AND GOSSIP OF THE STOCK MARKET

WASHINGTON.

The local stock market was much stronger today. There was a considerably larger volume of trading business and prices generally were higher.

Washington Gas certificates sold at 122 1/2 for \$1,000, and closed at 122 1/2 and 122 1/2.

Washington Railway and Electric issued assumed new activity. Of the preferred stock 1,200 shares were sold at prices ranging from 93 to 93 1/2, while as high as 93 1/2 was paid for some fractional lots. The closing was 93 1/2 bid and 93 1/2 asked. The common stock recorded an even larger gain, selling as high as 95 1/2, which was paid both for high and for options, and the total sales ran well above 500 shares. The close was 35 bid and 35 1/2 asked, an advance of a stout fraction. Of the bonds, \$8,000 sold at 103 1/2, and 103 1/2 asked.

Five shares of Metropolitan-Citizens' National Bank sold at 350.

American National recorded 2 points in the bid and asking price.

Riggs National Bank also lost 2 points in the bid and the asking price was lowered.

Mergenthaler was notably stronger, selling as high as 109 1/2, ex-dividend, equal to 20 1/2 with the dividend on. Several shares made up the volume of sales, at from 109 1/2 to 110, and the closing figures were 109 1/2 bid and 110 asked.

Graphophone common gained 1/2 point on sales of 400 shares at from 5 1/2 to 5 3/4, the latter being the closing bid, with 6 as the offering.

There was only one sale of Greene Copper shares at 85 1/2, which was the closing offering with 2 1/2 bid.

As high as 260 was bid for seven shares of Norfolk and Washington Steamboat, but there was no responsive offering.

## NEW YORK.

Canadian Pacific stock made a new high record price in yesterday's market, selling at 150, gaining for the day nearly 4 per cent. Comparatively few shares of similar merit, Canadian Pacific is not at all dear, and in view of the company's enormous holdings of mineral lands, which are increasing rapidly, and the discovery of new oil lands in its territory, it is not surprising that local foreign capital is moving into the stock.

Directors of the Republic Iron and Steel Company will meet in a few weeks, and the question of paying the back dividends on the preferred stock will be taken up. In the fiscal year ended June 30 last only one quarterly dividend on the preferred stock was paid. By June 30, 1905, therefore, there will be back dividends on the preferred stock equal to 1 1/2 per cent.

The story now commonly circulated, and which seems to be believed in many good quarters, is that such an arrangement has been made by the New York Central and the Republic Iron and Steel Company, and that the latter company will give the joint control of the two companies to the New York Central. It is said, has expressed a willingness to "do more" in the way of dividends, and to pay a 5 per cent dividend on the Ontario and Western stock than the New Haven company saw its way clear to do. A dividend of 5 per cent on the Ontario and Western stock is talked of.

One of the stories current on the Vanderbilt group is that the first announcement will be made in connection with the Big Four. It is said that the intention is to place Big Four on a par with the basis, and then have it absorbed by Lake Shore against a collateral trust bond.

## USED A HYPODERMIC WITH FATAL RESULT

Matthew H. Stafford, a forty-seven-year-old barber, was found on the floor of his shop, 1219 Seventh street northwest, dead as the result of an overdose of morphine, about 10 o'clock this morning. Coroner Nevitt, after hearing the circumstances, gave a certificate of death by accident.

For years Stafford is said to have been a victim of the drug habit. His body was marked with the black spots made by a hypodermic syringe. While in the regular United States army service many years ago he was caught under a pile of falling coals and painfully injured. This is said to have led to his seeking relief in using drugs.

Last night Leroy Hoke, of 1240 Twenty-eighth street northwest, who was employed by Stafford, closed the establishment and went home. This morning at 10 o'clock, in the next year ended June 30, the proprietor's corpse on the floor. A morphine outfit, together with a dozen needles, a knife, glass, and cup of water, were found on a chair. These told the story. In Stafford's left leg there was a needle, and a hypodermic syringe named "Maud in Fair Play," and a wife and child somewhere in the West. The body was taken to the Morgue City and the police are endeavoring to find his relatives.
